Climate	Continental
Location	Wine-growing region Posavje, Wine-growing district Dolenjska

SENSORY CHARACTERISTICS: It has an attractive, light red color with a slight ruby cast, and fresh fruity aromas, emphasizing red fruits (raspberry, cherry, and red currant). It is harmonious and smooth. Balanced acidity gives it freshness and drinkability. Low alcohol, low calorie and low sulfur content make this wine unique.

VINIFICATION:

Harvesting method	Hand-picked
Harvest time	August, September 2024
Vinification	Short fermentation of red varieties for a few days on the skins then pressed and fermented (also MLF) in steel tanks, White varieties are immediately destemmed, pressed, and fermented separately from red varieties. Blending is done after fermentation when the wine settles.
Bottling time	November 2024
